DETAILED ACTION

Page 2

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on November 21, 2005 has been entered. Claims 1-

Claim Rejections - 35 USC § 112

- 3. Claims 5, 25, and 41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- 4. In line 4 of claim 5, line 5 of claim 25, and line 5 of claim 41, there is a lack of antecedent basis for the term "in response to P." "P" is defined as the probability that the resource will complete servicing its task at the future point in time, and is defined in intervening claims 4, 24, and 40, respectively.

5. Should Applicant choose to amend independent claims 1, 21, and 20 to incorporate

allowable claims 4, 24, and 40, respectively (as indicated below in numbered paragraph 15), this

rejection would be rendered moot.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 7. Claims 1-3, 5, 20-21, 23, 25, 38-39, and 41 are rejected under 35 U.S.C. 102(b) as being anticipated by Svoronos et al. (USPN 5,802,161) (hereinafter Svoronos).
- 8. As per claim 1, Svoronos teaches the invention as claimed, including a work-management method comprising:

for a future point in time and each one of a plurality of resources, determining a probability of availability of the one resource at said future point in time (col. 1 lines 13-15, 36-39; col. 2 line 63 - col. 3 line 7);

combining the probabilities to obtain a number (col. 3 lines 22-62; col. 4 lines 11-51; col. 5 lines 8-14); and

using the number to schedule new tasks for the resources for the future point in time (col. 3 line 63 - col. 4 line 10; col. 4 line 62 - col. 5 line 35).

9. As per claim 2, Svoronos teaches the invention as claimed, including the method of claim

1, wherein using comprises scheduling for the future point in time no more than the number of

the new tasks to become available for servicing by the plurality of resources (col. 3 lines 14-21).

10. As per claim 3, Svoronos teaches the invention as claimed, including the method of claim

1, wherein combining comprises summing the probabilities to obtain the number (col. 3 lines 22-

62; col. 4 lines 11-51; col. 5 lines 8-14).

11. As per claim 5, Svoronos teaches the invention as claimed, including the method of claim

1, in a call center, wherein tasks comprise calls (col. 1 lines 5-12; col. 3 lines 8-10) and

scheduling comprises in response to P, determining whether or not to initiate or cancel an

outbound call (col. 3 line 63 - col. 4 line 10).

12. As per claims 20, 38-39, and 41, Svoronos teaches the invention as claimed, including a

computer-readable medium containing instructions which, when executed in a computer, cause

the computer to perform the method of claims 1-3 and 5 (col. 4 lines 62-67).

13. As per claims 21, 23, and 25, Svoronos teaches the invention as claimed, including a

work-management apparatus comprising means for performing the method of claims 1-3 and 5

(col. 2 lines 55-62).

14. Claims 6-18, 22, 26-37, and 42-54 are allowed.

15. Claims 4, 24, and 40 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
